

Coronavirus SARS-COV-2 IgG Only

Physician ID #: 64642
 Physician Tel #: (631) 425-0800
 MICHAEL BAUER MD
 175 CROSSING BLVD
 FRAMINGHAM, MA 01702

Patient Name: kv, Ajeesh
 Patient ID #: 20id0723202
 Date of Birth: 09/23/90
 Date Collected: 07/22/20
 Date Received: 07/23/20
 Report Date: 07/23/20

Patient Tel #:
 Patient Address: No 5, Hilton
 Miami, FL 33101

Dried Blood Antibody Tests

Test	Result	Ref Range	Interpretation
SARS-CoV-2 IgG	DETECTED	Negative	

Limitations

Laboratory test results should always be considered in the context of clinical observations and epidemiological data in making a final diagnosis and patient management decisions. We will continue to follow federal and state requirements for both notification of results and any confirmatory testing that is required by another agency.

IgG/IgM

This test has not been reviewed by the FDA. The test is an aid in the diagnosis and is to be used in conjunction with clinical findings. The results should not be used as a sole basis to diagnose or exclude SARS-CoV-2 infection or to inform infection status. Hyperlipaemic, haemolytic, microbially contaminated and turbid sera may cause erroneous results and should not be used. The assay performance characteristics have not been established for matrices other than serum. Not for the screening of donated blood.

Terrence W. Hallahan, Ph.D
 Laboratory Director

Michael J. Bauer, MD
 Assistant Laboratory Director,
 Diagnostic Immunology Virology
 (Limited to direct antigen detection
 and molecular techniques)

Jonathan B. Carmichael, Ph.D
 Assistant Laboratory Director,
 Genetic Testing - Molecular
